Subject: Move now on solar

The time has passed, the time is NOW to move further regarding incorporating solar energy into SC's mix. Let's not waste more time before acting. Please move the ball forward and proceed with your planned Sep 12th public hearing on net metering. In sunny SC, there's just no good reason not to.

I couldn't urge you more strongly, now after having just heard (yet another) important discussion about the state of our state(s) I urge you to play this podcast from the Diane Rehm Show on NPR: <http://thedianerehmshow.org/shows/2013-08-06/environmental-outlook-what-has-nature-ever-done-us-tony-juniper> (just click the Listen button near the top left).

Again, the time is NOW; let's get going, hold that hearing!

Thank you, Kathy Finger
